

**ENTERPRISE COLLABORATION EXPERIENCE**  
**COLLABORATION INNOVATION THROUGH GOOGLE WS**

Support companies in the effective and successful adoption of Google Workspace with a dedicated plan that aims to promote not only the optimal use of the platform to obtain maximum benefits but also support them in the change management processes required to maximize its adoption and simplify day-by-day activities.

**CLIENT**

REMAX

**PROJECT NAME**

Google Workspace Migration

**CHALLENGE**

After a strong growth, both in the brand and in revenue, the group was looking for a solution that would simplify communication and collaboration between the headquarters and its subsidiaries.

**WHAT WE DID**

With a gradual approach, starting from the main user needs, we have progressively activated all the Workspace components: first of all Calendar and Gmail and, subsequently, all the other tools.

**BENEFITS**

- Possibility to use Google Workspace to consult property-related documents, even during an inspection, directly from a tablet or mobile
- Consulting the appointment agenda on Google Calendar and plan meetings without overlapping
- Replying to emails without waiting to return to the office

**ENTERPRISE COLLABORATION EXPERIENCE**  
**EMPLOYEE EXPERIENCE**

Boost productivity, engagement, and motivation by defining best-in-class employee experiences.

We accelerate digital transformation enabling collaboration and process innovation to adopt the latest tool and fostering team's productivity.

Our approach will focus on four pillars (Strategy, Processes, Technology, and People) to build a tailor-made approach to offer any company the most compelling employee experience.

**CLIENT**

FNM

**PROJECT NAME**

migration on Google Workspace & Change Management

**CHALLENGE**

Optimising the use and adoption of the corporate intranet by all employees in different offices, cities and locations and, at the same time, helping people to have an operational tool to optimise their daily activities.

**WHAT WE DID**

- Develop a tailor-made agile-approach to maximise people engagement
- Create a fully integrated solution with all business applications
- Go-live for +2000 employee in 2 months
- Optimize employee engagement

**BENEFITS**

- Intranet Usage Time +20% in 2 months after platform
- People engagement +15% in 2 months after platform go-live
- Trouble Ticketing reduced by 12% in 2 months after platform go-live
